

NIKKEN

NEW: TWIN MICRO TOMBSTONE SOLUTION

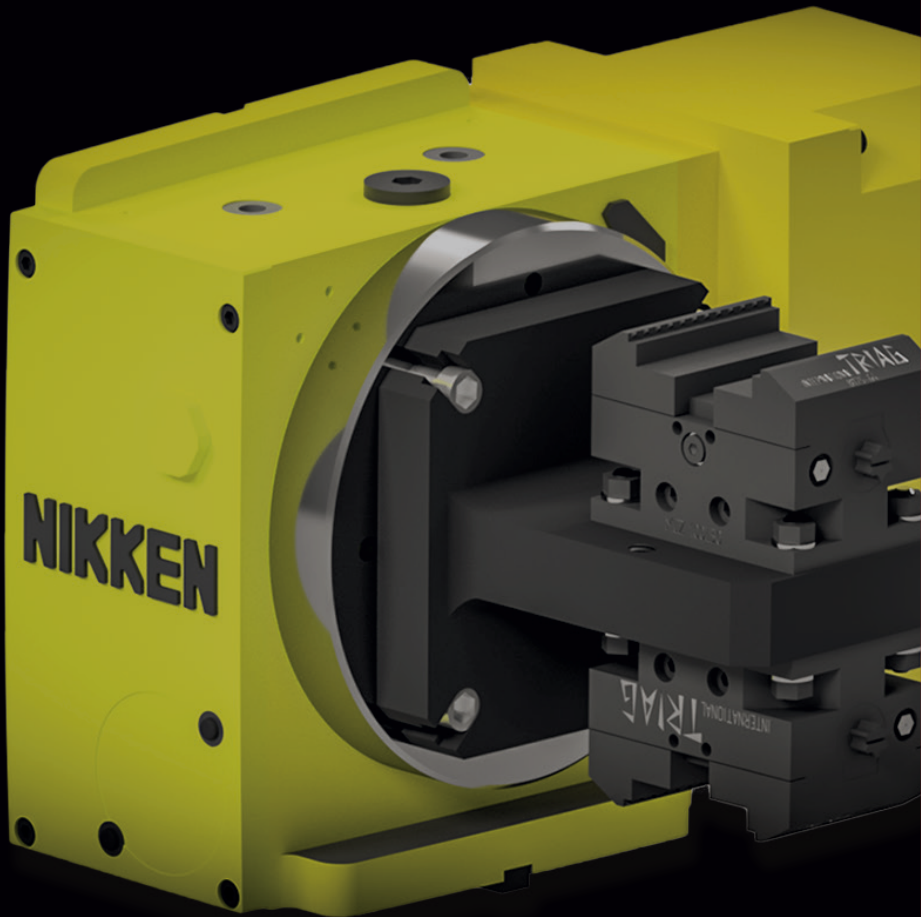

Increase productivity and maximise efficiency with our brand new two-sided rotary table tombstone - pre-prepared for the location of vices to both sides, allowing multiple components to be manufactured in one operation.

- Provides capability for multi-face machining of twin billets.
- Supplied with mountings and location for NIKKEN Rotary Tables up to 200mm faceplate diameter as standard.
- Compact and rigid solution.
- Compatible with LANG compact work holding solutions.
- Boost Productivity.
- Reduce Machine Downtime.

Utilise our new Micro Tombstone on your NIKKEN Rotary Table to accelerate production!

NICe - NIKKEN Innovation Centre Europe,
Advanced Manufacturing Park, Brunel Way,
Catcliffe Rotherham, S60 5FS
